ING DIRECT COMMERCIAL SERVICING CALCULATOR TIPS

Earlier this year, we introduced a new Commercial Servicing Calculator. To help save you time when you're using the Calculator, we've put together the following tips:

- List all borrowers and guarantors at step one using the 'applicant' and 'type' dropdown menus as this affects loan servicing outcomes. Doing this will ensure the rest of the information produced by the calculator is correct
- Use the 'submit' button at the top right of the final page (page 5) to save you time and effort. Once you press 'submit', you will get a checklist of documents to send in with the application and an email with the spreadsheet attached will be automatically created for you to send to our assessors
- Our loan application checklist has been created to reduce delays due to missing information. This checklist is required with every application, along with the Excel version of the servicing calculator
- Deleting all customer tax file numbers on documents ensures your application isn't delayed by our assessors asking you to re-submit documents

For the curious: Information is current as at the above date and is subject to change. ING DIRECT will consider applications above \$5.0 million on a case-by-case basis. The interest rate on these applications will be determined through your Business Development Manager. The above interest rates apply to Priority Commercial Mortgages for new business. Rates are reviewed and may change at any time without prior notice. The interest rate will be set on the settlement date for all loans, including fixed rate loans. All interest rates quoted above are indicative only. The comparison rates are based on a loan amount of \$150,000 over a loan term of 25 years. **WARNING:** The comparison rates are true only for the examples given and may not include all fees and charges. Different terms, fees or other loan amounts might result in different comparison rates. All applications for credit are subject to ING DIRECT's credit approval criteria. **WARNING:** If you have a Fixed Rate Loan you may be charged break costs if, before the expiry of the fixed interest period: (a) you make an additional payment of \$20,000 or more, or make additional payments totalling \$20,000 or more in any one-year period (with the first one-year period starting on the first day of the fixed interest period); or (b) you pay out that fixed rate loan or an amount becomes due and payable; or (c) we agree to change your loan type or fixed interest period that applies to your loan. Break costs could be substantial if interest rates fall during the fixed interest period. You should take break costs into consideration when deciding whether you want to fix your interest rate.
